Goin' down the road baby
one more time
Singing the blues but I'm
feeling fine
Well I'm headed for that
California Sunshine

Kissed my mama and I
hugged my pa
Packed my bags and I
threw 'em in the car
I'm headed for that
California Sunshine

From the Blue Ridge
Mountains to the
Mississippi River
Lookin' for a sign and
searchin' for an answer
I'm headed for that
California Sunshine

Times are gettin' hard
across the Great Divide
Water's gettin' low it's time
to pick a side
Well I'm headed for that
California Sunshine
And I got you, got you, got
you on my mind

Got an achin' in my heart
And I'm longing for you
This long and lonesome
road
Will always bring me right
back home

Same ol' place and time
I've got you on my mind
Now I made it cross the
Rockies down to Santa Fe
I'm a natural born killer
baby what can I say
Well I'm headed for that
California Sunshine

I'm on a golden hill with
the Orange County blues
Just a boy with a dream
and nothing left to lose
Well I'm headed for that
California Sunshine
And I got you, got you, got
you on my mind

Got an achin' in my heart
And I'm longing for you
This long and lonesome
road
Will always bring me right
back home

Same ol' place and time
I've got you on my mind

Now I'm driving up the
coast with the sun in my
face

Ocean breeze is blowing I
got time to waste
Cause I made it to that
California Sunshine

Grass is never greener on
the other side

We're gonna hit the open
road just one more time

I'm headed for that
California Sunshine
And I got you, got you, got
you on my mind

Got you on my mind
Got you on my mind
Got you on my mind
Got you on my mind
(California baby)

Got you on my mind
(California baby)

Got you on my mind
(California baby)

Got you on my mind
(California baby)
